**MANY OTHER USES
INCLUDING AUTOMOTIVE,
ANTIQUA, FORENSIC AND
PET STAINS**

The UV Pro is a professional quality high tech device for detecting counterfeit US currency, and other document fraud.

Powering your UV PRO

The UV Pro uses 3 AAA batteries. Insert the batteries paying special attention to the orientation of the positive (+) and negative (-) terminals. Batteries should be replaced when the UV light begins to weaken. Press button on top of device to power on/off.

ESSENTIAL FOR ANY BUSINESS SELLING OR SERVING ALCOHL

Powerful UV light for counterfeit detection

Use to detect UV features on Driver's Licenses

Works on credit cards, passports, and most secure documents

Works on Euro, Japanese Yen, Chinese Renminbi, British Pound, Peso, and most international currency

Excellent for damage detection on paintings and ceramics

Check for cleanliness and pet stains at home or in hotels or other public spaces

Use to check for oil or AC leaks

PASSPORTS:

New US passports have a UV security strip down the inside of interior pages near the binding.

To authenticate older US passports,

Hold the inside of the back cover under UV light. You will see small glowing fibers in the paper. Many foreign passports and visas also have UV features which you can check with your UV Pro.

MANUFACTURERS LIMITED WARRANTY:

FOR A PERIOD OF 90 DAYS FROM PURCHASE, THIS PRODUCT WILL BE REPLACED, OR THE PURCHASE PRICE REFUNDED IF DEFECTIVE IN MANUFACTURE. EXCEPT FOR SUCH REPLACEMENT OR REFUND, THE SALE OF THIS PRODUCT IS WITHOUT OTHER EXPRESSED OR IMPLIED WARRANTY OR LIABILITY, INCLUDING, BUT NOT LIMITED TO, INCIDENTAL OR CONSEQUENTIAL DAMAGES OR ANY KIND.

CREDIT CARDS:

All major credit cards have invisible UV features on the front which vary from card to card, but are almost always present.

American Express cards will glow AMEX across the front. Visa cards will either have an eagle or a prominent "V" on the front. MasterCard will usually have "MC" on the front. Discover cards have the word "DISCOVER" glowing brightly. Slide your card under the UV light and note the markings.

TRAVELERS CHECKS:

American Express Travelers Checks have UV markings. Place the Check under the UV light to observe the bill denomination located over the portrait of the Roman Centurion.

FOREIGN CURRENCY:

The UV Pro is excellent for testing the currencies of most countries.

EURO:

Small colorful fibers will glow under UV light.

BRITISH POUND:

Small fibers will glow under UV light,

CANADIAN DOLLAR:

Directly on the portrait of the Queen, the bill denomination will glow in multi-colors under UV light.

OTHER CURRENCIES:

Check our website for more information.

DRIVERS LICENSES:

Most state issued US drivers licenses have invisible UV features which are easily authenticated by the UV Pro. Hold the UV Pro light over your drivers license. Frequently, there will be UV markings on both sides. Use your license to familiarize yourself with a genuine state license.
